MOTOR TYPES

A. 110V Somfy Standard Motor (4-lead hardwired) in a 2" or 2-1/2" diameter roller (roller diameter depends on width of shade) controlled by a hardwired 110V rocker switch.
B. 110V Somfy Altus RTS Motor (plugs into a standard outlet) in a 2" or 2-1/2" diameter roller (roller diameter depends on width of shade) controlled by Somfy RTS radio remote control.
C. 110V Somfy Sonesse 50 RTS Quiet Motor (plugs into a standard outlet) in a 2" or 2-1/2" diameter roller (roller diameter depends on width of shade) controlled by Somfy RTS radio remote control.
D. 110V Vertilux Standard Motor (4-lead hardwired) in a 1-1/2" diameter roller controlled by a hardwired 110V rocker switch.
E. 110V Vertilux RC Motor (plugs into a standard outlet) in a 1-1/2" diameter roller controlled by Vertilux radio remote control.
F. 24V Somfy Sonesse 30 RTS Quiet Motor (low-voltage wired to a transformer) in a 1-1/2" diameter roller controlled by Somfy RTS radio remote control.
G. 12V Somfy LT30 RTS Motor – battery powered - in a 1-1/2" diameter roller controlled by Somfy RTS radio remote control.
H. 12V Somfy LT30 RTS Motor – low voltage wired to a plug-in transformer – in a 1-1/2" diameter roller controlled by Somfy RTS radio remote control.
N. Not Motorized but Coupled to another Motorized Shade – please diagram the installation on a separate instruction sheet.
O. Other:

☐ **Additional instructions on separate sheet.**

I understand that these are custom made products and that there will be an extra charge for any changes made after production has begun. Signed:_____
